CORPORATE

ABOUT US

Çakan Logistics was founded in 1983 by "Metin Çakan". Our company, which started its service with international transportation, has constantly expanded its corporate activity area. In 1994, Çakan Logistics started to expand its activities by focusing on container transportation from Mersin and Kocaeli ports to all over the world today; In addition to air, land and sea transportation, it also offers warehouse services and special project services. Prioritizing customer satisfaction above all else, Çakan Logistics has made it its mission to provide the most reliable and fastest service in the industry in line with this priority. Our company meticulously evaluates the needs in the field of supply chain management and always prioritizes the needs of our customers.

As Çakan Logistics, we have set high standards in the services we provide to our customers. Reliability, on-time delivery and operational excellence are the cornerstones of our business. Helping our customers grow their businesses and ensure their supply chain management runs smoothly is our top priority.

The biggest source of motivation for us to achieve this mission is our team of experienced and dynamic professionals. Çakan Logistics family has a great passion for adapting to the complexity and dynamism of the logistics industry. We combine our knowledge and experience to provide the best service to our customers in a constantly developing and changing sector.

OUR MISSION

As Çakan Logistics, we are determined to provide the highest service to our customers. With this commitment, we work together to meet the complexities and challenges of supply chain management and help our customers grow their businesses. We strive to better understand our customers' businesses and fully meet their needs.

Following the latest developments in the industry closely is an important step to progress competitively and provide better service to our customers. Therefore, we constantly monitor industry innovations, technological developments and best practices. In this way, we can always offer up-to-date and efficient solutions to our customers.

We develop flexible and original solutions to meet the customized needs of our customers. This approach is a reflection of our ability to respond to our customers' unique needs in supply chain management. In this way, we give our customers a competitive advantage and make their business more efficient.

OUR VISION

As Çakan Logistics, we adopt customer satisfaction as our highest priority. We act with this principle and aim to exceed our customers' expectations and meet their needs in supply chain management in the best way possible. With this vision, we are moving forward with the aim of not only making a difference but also becoming an exemplary company in the logistics industry by expanding our customer portfolio all over the world.

As Çakan Logistics family, we closely follow the latest developments in the sector and quickly adapt to these changing dynamics. We constantly improve ourselves, closely monitor technology and optimize our processes in order to offer the best and most up-to-date solutions to our customers. Thus, we help our customers gain a competitive advantage.

As Çakan Logistics, our aim is to support our customers to grow their business and enable them to make their supply chain management more efficient. In this regard, we will continue to offer special and customized logistics solutions to our customers with our expert staff, wide service range and global network. As Çakan Logistics, we look to the future with more confidence with our customer satisfaction and leadership in the sector.

SERVICES

SEA-FREIGHT TRANSPORTATION

We adopt the principle of making things easier for our customers with our maritime transportation services. Thanks to our many years of experience and deep-rooted relationships in global container shipping, we remain committed to providing reliable and effective service even on the busiest trade lanes. With the expertise of our business partners, we seamlessly manage the processes from the collection of containers from the port to their delivery to other loading or unloading addresses.

We are here to offer solutions specific to our customers' needs. We work with our expert teams to meet all your logistics needs, including customs clearance services. As Çakan Logistics, we aim to contribute to our customers making their business more efficient by providing them with a reliable and professional maritime transportation experience. We consider customer satisfaction at every step and are proud to be a strong business partner in maritime transportation.

ROAD-FREIGHT TRANSPORTATION

In road transportation, we provide our customers with professional, environmentally friendly and customized transportation solutions, meeting their logistics needs completely and reliably. We carry out door-to-door delivery of your LTL (Low Load) and FTL (Full Load) shipments worldwide without any problems. We also manage the insurance, customs clearance, storage and distribution of your cargo professionally.

Our employees, who are experts in their fields, prevent possible problems in import, export and transit shipments by performing risk analysis. We offer special solutions for your company in dangerous goods, out-of-gauge and refrigerated transportation. We also offer fast solutions to your urgent transportation needs with Express transportation services with our minivan vehicles. As Çakan Logistics, we are committed to providing our customers with reliable, environmentally friendly and customized services in road transportation.

AIR-FREIGHT TRANSPORTATION

Çakan Logistics stands out in the sector with the fast, reliable and effective transportation solutions it offers to customers in the field of air transportation. With a comprehensive service network on international and domestic lines, we are committed to delivering our customers' cargo as quickly as possible. In this process, from the first step, we carefully analyze the transportation needs of our customers and determine details such as the nature, quantity, destination and special requirements of the cargo. Then, we carefully manage the packaging, labeling and documentation processes necessary to prepare the cargo correctly.

Aware of the sensitivity of customs processes, we carry out customs procedures in a professional manner and provide support in arranging the necessary documents. We track every step of the cargo with modern tracking systems and communicate every moment of the process to our customers in a transparent manner. When choosing an airline, we offer the most suitable options, taking into account reliability, speed and cost factors. Finally, we maximize our customers' satisfaction by ensuring safe and timely delivery of cargo to its destination.

As Çakan Logistics, we aim to provide the highest level of service to our customers by using our expertise in air transportation, our experienced staff and our strong network. We facilitate your business processes with our fast, reliable and effective transportation solutions.

WAREHOUSE SERVICES

Çakan Logistics offers safe, orderly and effective storage solutions to its customers with its storage services. The warehousing process consists of a series of meticulously managed steps to protect customer belongings, organize them, and make them easily accessible when needed. The first step, storage planning, collects detailed information to understand customers' storage needs and determine requirements. It creates the most appropriate storage plan by providing information about which items to store, storage duration, volume requirements and special requirements.

In addition to having large and safe storage areas, Çakan Logistics offers customers storage areas with appropriate volumes and features. The most appropriate storage area is selected according to the type, size and features of the items. Storage areas are equipped with features such as security measures, climate control and fire safety. During the preparation of the items for the storage process, packaging, labeling and inventory processes are carried out meticulously. By determining the condition of each item, the risk of loss or damage is minimized.

Storage organization involves organizing items in an orderly manner in storage areas. Items are separated by category or groups and placed appropriately in the storage system. In this way, it ensures that the items are easily accessible and trackable. As Çakan Logistics, we use 24/7 security measures and monitoring systems to ensure that our customers are confident that their belongings are safe. We also attach great importance to inventory management and stock control during the warehousing process, thus helping our customers manage their business more efficiently by providing them with regular reports. When our customers want to remove their belongings from the warehouse, we provide a fast and safe delivery process. We pick up your belongings from the warehouse, arrange transportation and distribution, and deliver to the needed areas on time and safely. As Çakan Logistics, we are proud to offer our customers a quality and reliable storage experience with our experienced staff and advanced infrastructure.

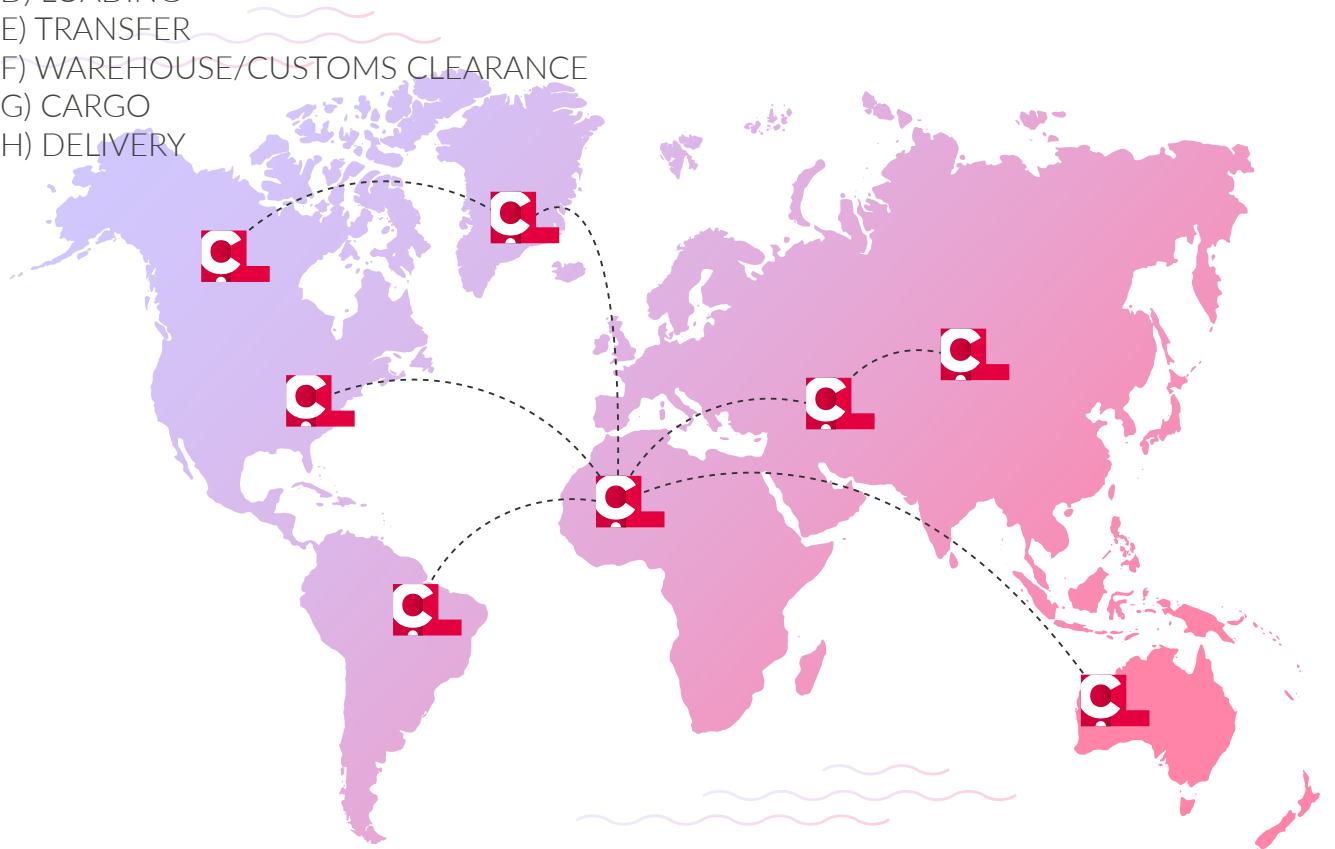

CARGO PROJECT SERVICES

As a logistics company with expertise in project cargo transportation, Çakan Logistics offers definitive solutions to its customers' special and complex transportation needs. Each project includes comprehensive stages such as cargo transportation, detailed planning, logistics analysis, route planning and airline selection. We work meticulously at every stage of transportation by preparing and packaging our customers' loads correctly and offering special packaging solutions for sensitive and special loads. We also manage complex processes such as customs clearance, permits and certifications.

Çakan Logistics provides reliable and effective transportation services to our customers by flawlessly managing all logistics processes from the beginning to the end of the project. Project management, coordination and communication are prioritized at every stage to help our customers successfully achieve their project goals. In this way, our customers can fully benefit from Çakan Logistics' experience and expertise as a reliable partner for their special and complex transportation needs.

ANNOUNCEMENTS

WE ARE AWARE THAT EVERY LOAD WE CARRY IS SPECIAL!

As Çakan Logistics, we meet all kinds of logistics needs with the wide range of services we offer to our customers in the transportation and logistics sector. Thanks to our business partners rooted in the global arena, we guarantee uninterrupted service even on the busiest trade lines. We manage your cargo meticulously from start to destination, ensuring they are safe at every stage.

As Çakan Logistics, we prioritize customer satisfaction above all else. We adopt innovative approaches to ensure operational excellence and support continuous development. We strictly adhere to the principles of sustainability by fulfilling our social and environmental responsibilities. We create strong business partnerships and networks in order to be competitive in the global market.

We attach great importance to the continuous development of our staff and keeping their motivation high. By closely following technological developments, we always make our logistics processes more efficient. We carry out all these activities by adhering to ethical values and with the principle of honesty, transparency and reliability.

WORLDWIDE SERVICE QUALITY IN CONTAINER TRANSPORTATION!

As Çakan Logistics, we are a strong partner that enables you to open your business to world markets. Ocean container shipping has become a critical component to growing and competing in today's global economy. We support our customers by providing an uninterrupted and reliable service in transporting their cargo in this challenging environment.

We work diligently to ensure that your cargo moves worldwide. When you want to grow your business and reach global markets, you want your cargo to reach all corners of the world safely. This is exactly where we come into play. Our containers keep your cargo safe and help you move it quickly and effectively. We'll also take care of customs clearance and other logistics details for you, so you can focus on your business.

As Çakan Logistics, our goal is to be a strong ally to our customers in transportation and to help them grow their businesses. Expanding into world markets now becomes more accessible and hassle-free, because we transport your cargo to the world with containers!

WE PRODUCE SPECIAL SOLUTIONS FOR YOU!

We create a custom strategy and plan for each of our clients to help them grow their business, achieve excellence and gain a competitive advantage. As Çakan Logistics, we adopt the latest technology and innovative approaches to help you make your logistics processes more efficient and achieve operational excellence. We are also committed to our environmental and social responsibilities and integrate sustainability principles into our business.

Beyond being a reliable business partner for our customers, we also aim to provide a strategic advantage. Whatever your need, as Çakan Logistics, we are with you every step of the way. As you grow, we grow too, and this collaboration lays the foundation for your future success. It doesn't matter how big your needs are, because "The Bigger Your Need, The Bigger Our Solution." And we are determined to keep that promise.
